

SANGILI S

FULL STACK DEVELOPER | REACT.JS & NODE.JS SPECIALIST

Email: sangilis423@gmail.com
Phone: +91 9384438060
Location: Coimbatore / Dindigul, TN, India
Portfolio: sangili-sangili.github.io/portfolio

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2.5+ years of hands-on experience building scalable, multi-tenant SaaS platforms and cloud-native applications. Proficient in Reactive Programming, React.js, Next.js, Node.js, TypeScript, PostgreSQL, MongoDB, and Docker. Proven track record optimizing database queries, automating webhook workflows, executing unit test cases, and resolving critical production incidents within Agile SDLC environments.

TECHNICAL SKILLS

FRONTEND & UI

React.js, Next.js, TypeScript, JavaScript (ES6+), Reactive Programming, Tailwind CSS, Redux Toolkit, Responsive UI

BACKEND & APIS

Node.js, Express.js, PHP, Laravel, RESTful APIs, WebSockets (Socket.io), Webhook Pipelines, JWT, OAuth 2.0, RBAC

TESTING & SDLC

Unit Testing, Integration Testing, Test Case Execution, Jest, SDLC Standards, Code Reviews

DATABASES & QUERY TUNING

PostgreSQL, MongoDB (Aggregations/Indexing), MySQL, Schema Design

DEVOPS & CLOUD TOOLS

Docker, Git, GitHub Actions (CI/CD), Nginx, PM2, Postman, Linux CLI

AI & LLM INTEGRATION

OpenAI APIs, Prompt Engineering, LLM Integration, GitHub Copilot

CORE COMPETENCIES

- Multi-Tenant SaaS Architecture
- System Scalability & Tuning
- Production Debugging & Diagnostics
- Agile / Scrum & Sprint Planning
- Test Case Design & Code Reviews
- Cross-Functional Collaboration

EDUCATION

Master of Computer Applications (MCA)

Dr SNS Rajalakshmi College of Arts & Science, Coimbatore
Completed: 04/2024

B.Sc. in Information Technology

G.T.N Arts College, Dindigul
Completed: 06/2022

WORK EXPERIENCE

Software Developer — ICore Software

08/2025 - 08/2026
| Coimbatore, India

Technologies

- SaaS Architecture & Scale:** Architected and scaled an enterprise Employee Live Monitoring SaaS platform using Next.js, React.js, Node.js, Express, and MongoDB, handling real-time telemetry from 1,000+ active client endpoints.
- Reactive Streaming:** Engineered bi-directional reactive channels via WebSockets and Socket.io to stream screenshot activity, idle-time telemetry, and live manager analytics with sub-second latency.
- Containerization & CI/CD:** Containerized backend services with Docker and established automated Git CI/CD pipelines, accelerating release cycles and reducing environment parity issues.
- Database Optimization:** Redesigned MongoDB aggregation pipelines and compound index structures, slashing dashboard query latency by 40% under peak concurrent loads.
- Reliability & SDLC:** Diagnosed critical production incidents using PM2 and Nginx logs; authored unit test cases and actively led technical estimations, peer code reviews, and testing standards.

Full Stack Developer — Litztech India Private Limited

1 0/2024 - 08/2025 | Coimbatore, India

- Full Stack Engineering:** Built modern, responsive interfaces using React.js, Next.js, TypeScript, and Tailwind CSS integrated with robust RESTful APIs in Node.js and Laravel.
- Third-Party & Messaging Integrations:** Built automated sales workflows connecting WhatsApp Business API, SMS gateways, and external CRMs via event-driven webhook architectures.
- SaaS Applications:** Delivered a Lead Management SaaS and Hostel Management solution with automated room allocations, tenant billing, digital check-in, and conversion KPI analytics.
- Security & Access Control:** Enforced granular Role-Based Access Control (RBAC), OAuth 2.0, and JWT authentication to ensure strict multi-tenant isolation and data protection.
- Relational DB Design:** Modeled relational schemas in PostgreSQL and MySQL, optimizing complex joins and transaction queries for business-critical billing operations.

Junior Backend Developer — Aegiiz

05/2023 - 05/2024 | Coimbatore, India

Technologies

- REST API Development:** Constructed secure, modular RESTful APIs and backend business logic using PHP, Laravel, CodeIgniter, and MySQL following standard SDLC practices.
- Performance Optimization:** Performed MySQL query profiling, indexing, and data normalization, improving API response times across high-traffic endpoints by 25%.
- Third-Party Integrations:** Implemented third-party payment gateway integrations with end-to-end webhook validation, error tracking, and automated reconciliation.
- DevOps & Debugging:** Supported CI/CD deployments on staging/production Linux environments and resolved server-side runtime exceptions.

KEY SAAS & TECHNICAL HIGHLIGHTS

Employee Live Monitoring SaaS (ICore): Real-time workforce management system with automated activity logging, screen captures, idle detection, and manager reporting dashboards.

Lead Management & WhatsApp Automation SaaS (Litztech): Automated lead routing engine featuring instant WhatsApp/SMS triggers, pipeline stage progression, and conversion KPIs.

Multi-Tenant Architecture & Event Pipelines: Built high-throughput webhook queues, strict tenant-keyed database isolation, and low-latency WebSocket communication layers.
